COLLEGE

CARDIAC & GENERAL HOSPITAL
Where Patient Care Is At The Heart Of All We Do

**Sohail Trust
Hospital**

S. M. SOHAIL TRUST PROGRAMS

JINNAH MEDICAL & DENTAL COLLEGE

In 1998, the Trust established Jinnah Medical College, admitting its first batch of MBBS students. In 1999, Jinnah College of Dentistry was opened and admitted its first batch of BDS students.

SOHAIL TRUST HOSPITAL

The Trust built a teaching Hospital in the Korangi Industrial Area for low-income residents. This not-for-profit Hospital is ideal for training of undergraduate and postgraduate students. The STH Outpatient Department opened to the public in 2002. Inpatient services were available from April 2003.

MEDICARE CARIDAC & GENERAL HOSPITAL

A state of the art teaching Hospital at Shaheed-e-Millat Campus. The Hospital has 220 beds, providing the entire range of cardio vascular and surgery services, including 24hour Emergency, Angiography, Angioplasty and Cardiac Surgery with ICU and CCU. This will provide a new dimension for teaching undergraduate and postgraduate students as they have the privilege of being exposed to a modern, high-tech hospital in the heart of the city.

SOHAIL UNIVERSITY

Sohail University was established under the auspices of S.M. Sohail Trust through a bill passed by the Provincial Assembly of Sindh under the Sohail University Act 2017, Sindh Act No: XIII of 2018 on May 9th 2018.

INSTITUTE OF HISTORICAL & SOCIAL RESEARCH

Institute of Historical and Social Research (IHSR) is a Karachi (Pakistan) based research organization with a very vibrant progressive and pro-people vision. It would undertake research on historical and socio-political issues, particularly with reference to Pakistan. The research conducted by the Institute will cover different disciplines independently as well as in a multi-disciplinary manner.

INTRODUCTION TO S. M. SOHAIL TRUST

S. M. Sohail Trust is named after a legal luminary of Karachi, who was an active participant in the freedom movement as President of Provincial Muslim League and also President of Bihar Relief Fund. He was an advocate of education and founded Sharfabad English School. His son, Professor Dr. Syed Tariq Sohail, an eminent Psychiatrist, Educationist and Civil Society activist, inherited Mr. S. M. Sohail's passion for education. He established the S.M. Sohail Trust in 1996, which owns Jinnah Medical and Dental College and its allied teaching hospitals: Sohail Trust Hospital and Medicare Cardiac & General Hospital. We truly believe that organizations with a clear-cut mission, vision, and goals, are driven with purpose, aligned and coordinated, and fueled by wins along the way.

MESSAGE FROM CHAIRMAN TRUSTEE

Prof. Dr. Syed Tariq Sohail

Chairman Trustee

Our progress has been defined by the seamless integration of a comprehensive medical ecosystem—uniting our medical college, hospital, and clinical research centers under the HEC-recognized Sohail University. By aligning our collective expertise, we continue to foster an environment where world-class educators provide truly transformative learning experiences.

In the past year, we have further enhanced our cutting-edge infrastructure to support a more interactive and modern teaching-learning atmosphere. Our faculty, distinguished by their academic rigor and industry insight, remains our most valuable asset in nurturing the competence of the next generation. As we enter the 2024-2025 cycle, I extend my deepest gratitude to our staff and students. Together, we are ready to embrace new challenges and reach even greater heights in our pursuit of educational excellence.

S. M. SOHAIL TRUST

VISION

The trust has a vision of becoming a hub for imparting knowledge and skills to not only healthcare sector but other disciplines as well.

MISSION

S. M . Sohail Trust is established to promote education in the field of Arts and Science and to provide and promote Financial Aid, Scholarships and Grants to needy students and to establish institutions for providing education, technical knowledge and expertise and to establish libraries and health centers.

FIVE YEAR STRATEGIC PLAN

Executive Summary

The Trust is named after a legal luminary of Karachi, Mr. S. M. Sohail, who was an active participant in the freedom movement as President of Provincial Muslim League and President of Bihar Relief Fund. After 1947, he became Secretary of the Pakistan Bar Council, founding Managing Director of Karachi Co-operative Housing Union and Chairman Public Accounts Committee of West Pakistan Assembly. He was an ardent advocate of education and founded Sharfabad English School.

The Trust established "Sohail University" on May 9th 2018. The trust has a vision of becoming a hub for imparting knowledge and skills to not only healthcare sector but other disciplines as well. The affiliated institutions enjoy good reputation for the quality of innovative teaching and clinical training in the attached well equipped hospitals. Having achieved academic excellence in these institutions Sohail University is poised to initiate graduate and post graduate programs and establish centers of excellence in emerging areas of science, engineering, technology, management and allied disciplines.

Mission:

S.M. Sohail Trust is established to promote education in the field of Arts and Science and to provide and promote Financial Aid, Scholarships and Grants to needy students and to establish institutions for providing education, technical knowledge and expertise and to establish libraries and health centers.

Objectives:

1. To establish Jinnah Medical College at Karachi.
2. To establish other Educational, Professional, technical and vocational institutions.
3. To do all acts to promote education of arts and sciences.
4. To provide and promote financial aid, scholarships, and grants to needy students and institutions.
5. To establish institutions for providing education, technical knowledge and expertise, monetary assistance in the form of loans, aid and or any other Qarz-e-Hasna and to establish libraries, health centers etc.
6. To acquire immovable properties for establishing educational institutions, health centers and libraries.

The vision and mission statements set the tone to achieve preeminence among the peer institutions. The strategic plan of the trust is derived from the intent of its vision and mission statements providing a roadmap for achieving excellence in the following defined areas.

- a) Effective Education
- b) Scientific Research
- c) Community Service.

Effective Education:

With the increasing health related issues of the growing population in the country, the demand for healthcare professionals' is on rise. The SM Sohail Trust established Sohail University and a cluster of the healthcare colleges to contribute its share by producing healthcare and other professionals with contemporary knowledge and skills as per national and market needs.

These teaching and learning processes in these colleges is focused on graduating knowledgeable and competent professionals who can utilize the basic principles of human health and body's behavior in conjunction with their technical skills, diagnosis, care of patient and disease prevention. They are trained to integrate knowledge across disciplines and perform procedures professionally and competently for the well-being of the patients. The whole educational process is based on modern curriculum that is designed with integration of courses and delivered through effective teaching strategies as well as training in simulation laboratories and clinical settings to enhance knowledge and skill base of the students. So far 1100 MBBS, 600 BDS and 338 Nursing graduates have joined the national and international workforce.

Scientific Research

The University established a Research Center in May 2010 to promote scholarly activities and scientific research at the University and affiliated colleges to facilitate faculty and teaching staff achieving important component of its mission by providing trainings and resources to the faculty for scholarly activities. An encouraging trend for the involvement of faculty and students in research and scholarly activities is observed in terms of the increasing number of publications and citations in indexed journals.

Community Service

The SM Sohail Trust has a major focus on meeting the national and local community's needs in terms of producing qualified and competent healthcare professionals to provide standard and safe care to the patients. In 1996, the trust established Sohail Trust Hospital (STH) in the Korangi Industrial Area. The STH is accredited as teaching hospital for undergraduate students of Jinnah Medical & Dental College and postgraduate students of College of Physicians and Surgeons, Pakistan. Further, the hospital provides services to meet the healthcare needs of the underprivileged community of the adjacent areas and beyond without any prejudice to religion, cast, gender, culture etc., through donations, zakat and subsidized fee for services. The STH service activities include providing awareness to the community for disease prevention and taking care of ill patients. It organizes free medical camps for the community in the hospital premises and localities.

S.M. SOHAIL TRUST

STRATEGIC GOALS

STRATEGIC GOAL 1: ACHIEVE EXCELLENCE IN CONTEMPORARY EDUCATION.

STRATEGIC GOAL 2: INFUSE A CULTURE OF SCIENTIFIC RESEARCH AND INNOVATION.

STRATEGIC GOAL 3: IMPROVE COMMUNITY HEALTH AND STRENGTHEN RELATIONSHIPS.

STRATEGIC GOAL 4: HUMAN RESOURCE CAPACITY BUILDING.

STRATEGIC GOAL 5: MAINTAIN A VIBRANT LEARNING AND WORKING ENVIRONMENT.

STRATEGIC GOAL 6: FOSTER FINANCIAL SUSTAINABILITY.

STRATEGIC GOAL 7: EMBRACE ELECTRONIC TRANSFORMATION AND SYSTEM DIGITALIZATION.

1: ACHIEVE EXCELLENCE IN CONTEMPORARY EDUCATION.

Objective 1. Sustain student-centered educational environment for innovative and modern education.				
#	Initiatives	Timeline	Performance Indicator	Responsibility
1.1	Systematic review of the curriculum to eliminate redundancy and allow time for expanded learning opportunities in contemporary education.	Annually	Program Learning Outcomes Achievement Report Course Reports.	Curriculum Committee Academic Council.
1.2	Implement blended learning approaches; case-based learning, evidence-based practice and active learning throughout the curriculum in health cluster colleges.	Annual	Number of courses incorporating blended learning approaches	Curriculum Committee Academic Council
1.3	Expand learning opportunities in areas of emerging technologies and research.	January 2024	Changes in courses/curriculum	Curriculum Committee
1.4	Develop collaborations and initiate inter-professional education [IPE] learning opportunities with other colleges in the health cluster: JMDC, JCN, JCRN, JCP.	January 2024 & Ongoing	Number of IPE projects in an academic year	Academic Council Curriculum Committee
1.5	Review market trends, national and local community demands for healthcare and other professionals and educators.	Annually	Statistics from Ministry of Education & Ministry of Health	Chair CHS
1.6	Augment quality and competency of University graduates.	Ongoing	On-time graduation Rate	Academic Council Examination Department
Objective 2. Curriculum focusing on comprehensive patient care model.				
#	Initiatives	Timeline	Performance Indicator	Responsibility
2.1	Enhance the Group Practice Model to integrate curricular content, increase efficiency and facilitate trans-disciplinary patient-centered care.	July 2023	Evaluation of courses with group practice approach	Medical Education Department Academic Council
2.2	Develop policy on achieving competencies in the programs.	July 2023	Competency Manual and Policy	Examination Department
2.3	Maintain an active patient database.	Ongoing	Number of active patients	Director Hospital IT Department

STRATEGIC GOAL 2: INFUSE A CULTURE OF SCIENTIFIC RESEARCH AND INNOVATION.

Objective 1. Advance the scientific infrastructure to provide state-of-the-art core research facilities.

#	Initiatives	Timeline	Performance Indicator	Responsibility
2.1.1	Upgrade and maintain safety measures in research labs.	Ongoing	Research labs maintenance & safety report (Rate of labs accidents /malfunction)	Dean BRS Health and Safety Committee
2.1.2	Complement research laboratories with materials, equipment and staff to accommodate research themes.	Ongoing	Updated inventory of research laboratories	Dean BRS
2.1.3	Monitor optimal usage of research equipment at high efficiency level.	Ongoing	Equipment utilization report	Dean BRS Research Committee

Objective 2: Establish and support an environment of creativity and innovation

#	Initiatives	Timeline	Performance Indicator	Responsibility
2.2.1	Establish collaborative channels with academic and community partners and entrepreneurs.	Ongoing	Report on inter-professional / trans disciplinary collaboration events	Dean BRS Research Committee
2.2.2	Encourage and support faculty and students to explore opportunities for creativity and innovation.	Ongoing	Number of patents	Research Committee
2.2.3	Promote creativity and innovation through recognition of achievements and excellence awards.	Ongoing	Number of excellence awards	Research Committee

Objective 3. Provide optimal opportunities to faculty and students for participation in scientific research.

#	Initiatives	Timeline	Performance Indicator	Responsibility
2.3.1	Introduce themes for research.	July 2023	Number of Orientation sessions held annually	Research Committee

2.3.2	Support and encourage scholarly pursuits by junior faculty through research mentorship.	Ongoing	Number of publications by newly joined faculty	Research Committee
2.3.3	Create scholarship culture and activities that contribute to generating knowledge.	Ongoing	Report on scholarly activities	Dean BRS Research Committee
2.3.4	Promote students research By emphasizing research skills in courses.	Ongoing	Number of courses with research components	Academic Council Curriculum Committee Research Committee
2.3.5	Provide funding opportunities for students' research.	Ongoing	Number of students funded research projects	Dean BRS Research Committee
2.3.6	Facilitate student's participation and presentations in national, regional and international scientific sessions.	Ongoing	Number of scientific presentations in conferences by students in an academic year	Dean BRS Research Committee
Objective 4. Explore opportunities for extramural funding enhancing community focused research.				
#	Initiatives	Timeline	Performance Indicator	Responsibility
2.4.1	Compete for maximum research funding for faculty and students from University.	Ongoing	SU's research budget allocation	Executive Director Dean BRS
2.4.2	Establish and disseminate an online repository of available funding opportunities relevant to researchers and students.	Ongoing	1. List of external funding agencies (international and national). 2. Amount of money from external research funding.	Dean BRS Research Committee
2.4.3	Develop and implement internal grant review process to provide constructive feedback for faculty and trainees.	Ongoing	Number of reviewed grant proposals /research manuscripts.	Dean BRS Research Committee

Strategic Goal 3: Improve Community Health and Strengthen Relationships.

Objective 1. Develop an effective comprehensive patient-centered care program.				
#	Initiatives	Timeline	Performance Indicator	Responsibility
2.5.1	Strengthen patient relations Management.	Ongoing	1. Patient satisfaction survey 2. Number of patient complaints	QA Department
2.5.2	Improve complaint resolution time.	Ongoing	Annual average complaint resolution time	QA Department
2.5.3	Document and follow evidence-based-guidelines for patient-care management.	Ongoing	Clinical guideline manual	HODs Clinical Department
2.5.4	Establish system for reporting morbidity and mortality.	Ongoing	Post-surgical morbidity report	QA Department
2.5.6	Provide optimal patient treatment experience to educate the emerging workforce.	Ongoing	Horizontal and vertical integration of the courses	Academic Council
Objective 2. Strengthen onsite and outreach community programs for university and hospitals preeminence				
#	Initiatives	Timeline	Performance Indicator	Responsibility
2.6.1	Foster Community Health initiatives through Development of partnerships.	Ongoing	1. Number of partner organizations per year 2. Number of partner schools per year	CHS Hospital Administration

			3. Average satisfaction with partners, organizations, schools.	
	Support and encourage students and faculty's service learning in community health.	Ongoing	Percentage of students engaged in community service activities.	1. CHS 2. Clinical HODs 3. Hospital Administration
2.6.2	Enhance community Partnership with industries, NGOs and schools.	Ongoing	Number of community partners	CHS Hospital Administration
2.6.3	Design strategies to monitor community opinions for quality and image of services.	Ongoing	Community satisfaction surveys	QA Department
2.6.4	Develop outreach programs for underprivileged population.	Ongoing	Plan for Outreach Program (Medical Camps) Number of beneficiaries of outreach community services	1. CHS 2. Clinical HODs 3. Hospital Administration

Strategic Goal 4: Human Resource Capacity Building.**Objective 1: Recruit and retain well-qualified faculty and staff.**

#	Initiatives	Timeline	Performance Indicator	Responsibility
2.7.1	Develop and implement employment projection model that responds to university's aspirations, fostering an essential balance of research-intensive scholars and clinical teacher	Ongoing	5-year employment projection plan	HR Department
2.7.2	Pursue endowed professorships /chairs to recruit and retain senior faculty.	Ongoing	Number of endowed positions	
2.7.3	Enhance effectiveness of recruitment and hiring process and select candidates based on relevant departments/ administration recommendations.		Number of newly joined faculty and staff in an academic year Annual recruitment report	
2.7.4	Acknowledge and reward faculty and staff with outstanding performance.	Ongoing	Outstanding performers awards Job Satisfaction Survey Report	

Objective 2: Provide innovative continuing education and professional development programs.

#	Initiatives	Timeline	Performance Indicator	Responsibility
2.8.1	Enhance mentoring and professional development opportunities for faculty members, administrative and support staff.	Ongoing	Reports on CE-D Program	Continuing Education & Development Unit

2.8.2	Deliver onsite and online CE - development courses.	Ongoing	Number of CE and Development courses offered in an academic year. Number of participants per events. Satisfaction report on provided courses	Continuing Education & Development Unit
2.8.3	Motivate and develop faculty and alumni to conduct CE sessions at the College.	August 2021	Report on the pools of faculty and alumni presenters. Report on topics presented by pool members	Continuing Education & Development Unit
2.8.4	Branding SU's Medical Education Program for evolving teaching and specialization needs.	Ongoing	1. Number of programs organized in an academic year. 2. Number of participants in CE programs 3. Satisfaction report on provided courses	Medical Education Department
2.8.5	Maintain strong academic and professional links with the educational communities nationally and internationally.	Ongoing	1. Number of onsite & external CE session offered in an academic year. 2. Number of faculty participating in professional societies. 3. Report on media coverage of CE programs	Medical Education Department
2.8.6	Promote alumni engagement in CE program	Ongoing	1. Number of alumni participants in CE programs in an academic year.	Medical Education Department

			2. Number of alumni presenters in CE programs	
--	--	--	---	--

Strategic Goal 5: Maintain a Vibrant Learning and Working Environment.

Objective 1: Create a learner-centered environment at the university, encourage and maximize students' potential to achieve their aspirations.				
#	Initiatives	Timeline	Performance Indicator	Responsibility
2.9.1	Maintain conducive educational and work environment and facility upkeep, fostering and promoting physical and mental well-being of the faculty, staff and students.	Ongoing	1. Student clubs activities 2. (Entertainment, art, sports, cultural). 3. Annual Social Gatherings. 4. Mental health awareness lectures. 5. Health clinic.	1. HR Department 2. University Registrar 3. Students Affairs
2.9.2	Maintain infrastructure and facility improvements to promote a state-of-the-art environment with technological advancements	Ongoing	1. Environmental rounds report. 2. User Satisfaction Survey Report (Students', Faculty and Staff). 3. Employees (non-faculty) Job Satisfaction Survey.	COO University Registrar QE and QA Departments
2.9.3	Ensure safety and security at all working and educational sites.		1. Environmental rounds report. 2. Number and analytical report of OVRs. 3. Risk Management Unit.	COO Security and Maintenance Departments
2.9.4	Acquire and maintain equipment and resources including readiness of classrooms, labs and clinics	Ongoing	-	COO University Registrar Principals

2.9.5	Enhance adequacy and efficiency of facilities and services provided to all stakeholders	Ongoing	Facility User Satisfaction Survey Report	COO Security and Maintenance Departments
-------	---	---------	--	---

Strategic Goal 6: Foster Financial Sustainability.

Objective 1: Diversify financial resources to achieve financial sustainability.				
#	Initiatives	Timeline	Performance Indicator	Responsibility
3.1.1	Prepare budget plan that justifies fund request from the Board of Trustees to support operational facilities of the university and affiliated institutions.	Annually	Approved budget Expansions and optimization plan	Board of Trustees Director Finance
3.1.2	Prepare feasibility report for new projects / programs.	On need basis	Feasibility report of new projects / programs	University Vice Chancellor University Registrar COO
3.1.3	Rationalize operational and maintenance cost.	Ongoing	Allocated amount vs expenses (operational and maintenance)	COO Director Finance

3.1.4	Strengths existing corporate clientele and engage new corporates for healthcare services at MCGH & STH.	Ongoing	% increase in new corporate clients Increased or decreased % of corporate patients	COO Hospital Administration
3.1.5	Introduce new clinical services and redesign the packages for surgical and medical procedures.	Ongoing	Number of new services Number of beneficiaries	COO Hospital Administration
3.1.6	Improvise fund raising strategies, develop partnership and collaboration with the local and national healthcare networks, government agencies and industries.	Ongoing	Number of signed MOUs	Resource Mobilization Unit
3.1.7	Enhance and offer paid Continuing Education & Professional Development programs (onsite and online) to the faculty and practitioners.	Ongoing	1. Number of programs and participants. 2. Improved revenue through CE and Professional Development courses.	Medical Education Department SU Marketing Department
#	Initiatives	Timeline	Performance Indicator	Responsibility
3.2.1	Strengthen budgetary controls through financial projections of capital and operating	Ongoing	5-year financial feasibility projection plan	COO Director Finance

2.9.5	Enhance adequacy and efficiency of facilities and services provided to all stakeholders	Ongoing	Facility User Satisfaction Survey Report	COO Security and Maintenance Departments
-------	---	---------	--	---

Strategic Goal 6: Foster Financial Sustainability.

Objective 1: Diversify financial resources to achieve financial sustainability.				
#	Initiatives	Timeline	Performance Indicator	Responsibility
3.1.1	Prepare budget plan that justifies fund request from the Board of Trustees to support operational facilities of the university and affiliated institutions.	Annually	Approved budget Expansions and optimization plan	Board of Trustees Director Finance
3.1.2	Prepare feasibility report for new projects / programs.	On need basis	Feasibility report of new projects / programs	University Vice Chancellor University Registrar COO
3.1.3	Rationalize operational and maintenance cost.	Ongoing	Allocated amount vs expenses (operational and maintenance)	COO Director Finance

	expenses and income opportunities.			
3.2.2	Develop cost efficiency plan to increase revenues and decrease expenses.	Annually	Budgeted vs actual expenses	COO Director Finance
3.2.3	Review and update the initiatives and implement a capital and assets work plan in consultation with key stakeholders.	Annually	Number of Initiatives exceeding budget	COO Director Finance
3.2.4	Digitalize and improve financial management system.	July 2023	Acquisition and implementation report of digital financial system	COO Director Finance Director IT Services
3.2.5	Strengthen internal auditing of financial transactions.	Ongoing	Annual internal audit report	COO Director Finance
3.2.6	Reduce number of financial errors.	Ongoing	Annual report for number of financial errors	Director Finance
3.2.7	Generate and review midterm and annual financial reports for adjustments and immediate actions. (allocated budget, income and expenses)	July 2023	Mid-term and annual budget reports Adjustment and improvement actions	COO Director Finance

Strategic Goal 7: Embrace Electronic Transformation and System Digitalization.**Objective 1: Enhance electronic transformation of COD operational activities**

#	Initiatives	Timeline	Performance Indicator	Responsibility
3.3.1	Enhance administrative operations by automation of systems and processes.	Ongoing	1. List of online activities/processes. 2. Electronic inventory record 3. Electronic documentation	Executive Director Director IT Service
3.3.2	Foster decision-making using database and electronic channels for communication.	Ongoing	Number of electronic data based decisions	Executive Director Director IT Service
3.3.3	Implement Electronic Health Record (EHR) to reduce stationary cost.	January 2024	1. Percentage of EHR among active patients. 2. % of satisfied clinical staff for EHR use	HIMS Department QA Department

Objective 2. Incorporate technology to upgrade the students learning experience.

#	Initiatives	Timeline	Performance Indicator	Responsibility
4.4.1	Modernized teaching strategies	Ongoing	List of courses using e-learning resources	Curriculum Committee

				E - Learning committee
4.4.2	Integrate digitalized components in educational Programs.	Ongoing	% of progression in integrating digital content in the curricula (under and postgraduates).	Curriculum Committee E - Learning committee
4.4.3	Provide and support use of innovative tools and services for use of technology in education.	Ongoing	<ol style="list-style-type: none"> 1. Number of faculty development programs enhancing use of e-learning strategies. 2. e-learning experience satisfaction survey (Student and faculty) 	Medical Education Department IT Services E - Learning committee
4.4.4	Establish electronic question bank and employ students e-assessment processes	2024 Ongoing	<ol style="list-style-type: none"> 1. % of courses with e -assessment (per semester) 2. e -learning assessment satisfaction survey (Student and faculty) 3. % of Course Learning Outcomes assessed digitally / electronically. 	Examination Department

The colleges of the trust are Jinnah Medical and Dental College & Medicare School of Nursing. The Medical & Dental college is regulated by Pakistan Medical & Dental Commission (PMDC) which allows a maximum of 100 students/batch in MBBS and 50 students/batch in BDS.

Sohail Trust Hospital Korangi has 350 beds whereas Medicare Cardiac & General Hospital is 220 beds.

LIQUIDITY PROFILE

Investment positions are prepared, reviewed and monitored on a regular basis for smooth operations and maximizing the returns.

CORPORATE GOVERNANCE

The Trust strives to comply with the requirements of the Code of Corporate Governance Regulations 2017. The requirements are practiced on a voluntary basis to ensure good governance.

RISK MANAGEMENT AND COMPLIANCE

Owing to the changing landscape and intermittent regulations, guidelines and rules for NPOs, legal and compliance are areas that require constant attention. The Board is cognizant of the matter, and aims to put further emphasis on this important subject. During the year, the board has approved the risk matrix of the Trust and has constituted the risk and compliance committee to further formalize and set in place a continuous process to mitigate related risks and complete action points appropriately.

STATEMENT ON CORPORATE AND FINANCIAL REPORTING FRAMEWORK

- These financial statements prepared by the management of the Trust present fairly its state of affairs, the result of its operations, cash flows and changes in funds and reserves.
- Proper books of accounts of the Trust have been maintained.
- Appropriate accounting policies have been consistently applied in preparation of the financial statements and accounting estimates.
- Financial Reporting Standards (IFRS) as applicable in Pakistan have been followed to prepare the Trust's financial statements. Approved accounting standards comprise of such International Accounting Standards as notified under provisions of the Companies Act 2017. In case the requirements differ, the provisions of or directives issued under the Companies Act 2017 shall prevail.

- The Internal control systems have effectively been designed and implemented. These systems are continuously monitored by Internal Audit and through other monitoring mechanisms. The process of monitoring internal controls will continue as an ongoing process with the objective to further strengthen the controls and bring improvements to the system.
- There are no significant doubts upon the Trust’s ability to continue as an ongoing concern.
- There has been no material departure from the best practices of corporate governance.

PRINCIPAL RISKS AND UNCERTAINTES OF THE TRUST ARE:

Risks	Mitigating Actions
Regulatory Risk	Regulatory changes, if any are adhered and create internal procedures to implement them.
Investment and FCY Risk	Investment portfolio is diversified and monitored on a regular basis. FCY deposits are part of our portfolio and valued as per the exchange rate.
Internal Control Risk	An independent internal audit function is in place that reports directly to the Board. Other monitoring mechanisms are in place at organizational and departmental level.
Recruitment & Retention Risk	We hire, develop and retain the good people at all levels of the organization
Safeguarding Risk	Corporal punishment guidelines are followed at all levels. There is zero tolerance policy on this.

The Board member approved an appropriation of surplus funds of PKR 73 million approximately at the end of the year to be transferred to various funds in 2024-25.

SUBSEQUENT EVENTS

No material changes or commitments affecting the financial position of the Trust have taken place between the end of the financial year and the date of the Report, except the appropriation of reserves as mentioned above.

BOARD MEETINGS AND ATTENDANCE

The Board holds quarterly scheduled meetings throughout the year. During the financial year ended 30 June, 2025.

Board Members	Status	Eligibility to Attend	Attended
Dr. Syed Tariq Sohail	Trustee	4	4
Mrs. Ghazala Tariq Sohail	Trustee	4	4
Dr. Syed Adnan Tariq Sohail	Trustee	4	4
Mr. Syed Bulent Sohail	Trustee	4	4
Ms. Maham Tariq Sohail	Trustee	4	4

INVOLVEMENT OF THE BOARD OF TRUSTEES

The Board of Trustees of The Trust are experienced and qualified professionals who bring a diverse range of professional and technical expertise to the organization. The members make sure that objectives are made and aligned with the core vision.

The Board of Trustees provide oversight on the Trust's strategy and management effectiveness in order to ensure alignment with its core mission as well as its operating environment.

The Board also plays a critical role in ensuring the Trust's financial sustainability through its fundraising efforts as well as being a source of guidance and expertise for all functional leaders within the organization.

FINANCIAL STATEMENTS

The financial statements of the Trust have been approved and duly audited without qualification by the auditors of the Trust; their report is attached with the financial statements.

AUDITORS

The audit firm has been given satisfactory rating under the Quality Control Review Programme of Institute of Chartered Accountants of Pakistan (ICAP). It is fully compliant with the International Federation of Accountants' guideline on codes of ethics, as adopted by ICAP.

SMST EMPLOYEE BENEFITS

Medical coverage is grouped into four parts as follows:

- INPATIENT TREATMENT
- OUTPATIENT TREATMENT
- MATERNITY BENEFITS
- LEAVE POLICY

Employees may utilize accrued sick leave for the following reasons:

- a) Illness or injury of the employee.
- b) Any medical treatment or consultation.
- c) Quarantine due to a contagious illness in the employee's household.

OTHER EMPLOYEE BENEFITS

- a) Gratuity
- b) SESSI (Sindh Employee's Social Security Institution)
- c) EOBI (Employee's Old Age Benefits Institution)

BOARD OF TRUSTEE

At the date of this report, the Board of Trustees of the Trust are:

- Dr. Syed Tariq Sohail
- Mrs. Ghazala Tariq Sohail
- Dr. Syed Adnan Tariq Sohail
- Barrister. Syed Bulent Sohail
- Ms. Syeda Maham Tariq Sohail

The listed Board of Trustees held office as a Trustees of the Trust throughout the financial year ended 30th June, 2024.

COMPOSITION OF BOARD OF TRUSTEES

The total number of Trustees is 5 and male to female ratio is 3:2.

TRUST PRINCIPAL ACTIVITIES

The Trust is involved in running college and health care establishments. At present, Trust is operating two large Hospitals together with Medical & Dental colleges as well as a basic health unit.

OPERATIONAL PERFORMANCE

As the Trust continued to expand its operations in line with its vision, with the goal to impact more beneficiaries, the operational performance remained firm, despite the volatile economic situation in the country.

Description	2024	2025
Income	Rs. In 000	
Tuition Fee – Net off Scholarship & Concession	761,341	965,133
Treatment Charges – Net off Zakat and welfare	1,734,249	2,295,108
Expenditure		
Operating Expenses	2,018,876	2,136,063
Administrative Expenses	312,563	751,713
Total Assets	4,946,071	5,612,560

13th Feb 2025

SHARIAH APPROVAL FOR ZAKAT FUNDS- **SM-SOHAIL TRUST**

Sohail Trust Hospital (STH) is a project of S.M Sohail Trust established in 2002 is a 350 beds hospital spread over four acres of land located in the Korangi Industrial Area for underprivileged patients. This hospital is the nexus for primary healthcare needs.

Method of the utilization of Zakat:

The financial needs of the Hospital are being covered through both general donations and Zakat contributions from individuals and corporations in Pakistan and around the globe. The Zakat received by STH is allocated towards the welfare of deserving patients. The management of STH assesses the financial status of applicants to determine their eligibility for Zakat and subsequently receives authorization from eligible patients to collect Zakat on their behalf. This constructive tamleek (ownership) arrangement allows STH to collect zakat on behalf of beneficiaries and utilize it appropriately in accordance with their eligible needs.

Shariah Ruling:

In order to ensure adherence to Shariah principles throughout the entire Zakat process, our company has been designated as an independent Zakat Consultant. Our responsibility is to thoroughly examine all zakat-related documents and procedures. We have conducted a comprehensive review, we are pleased to confirm that Sohail Trust Hospital (A project of SM Sohail Trust) collects and utilizes zakat funds in compliance with Shariah laws and regulations.

May Allah Almighty forgive any mistake in this assignment and grant the management the best reward for their services. Aameen

Mufti Ubaid Ur Rahman Zubairi

Plan For 2026

Vision

To be nationally respected for excellence in patient care.

Mission

To improve the health and healing of the people and communities we serve.

Quality Policy

- CARING: We Do the Kind Thing
- SAFETY: We Do the Safe Thing
- EXCELLENCE: We Do the Best Thing
- INTEGRITY: We Do the Right Thing

Message From The Medical Director

Dr. Fadieleh A. Sohail

Medical Director
Medicare Cardiac & General Hospital

At Medicare Cardiac & General Hospital, our commitment to excellence is reflected in both our advanced infrastructure and the dedication of our people. The hospital is equipped with state-of-the-art medical technology sourced from leading manufacturers across Europe, Japan, the United States, Germany, and other globally recognized healthcare markets. Our comprehensive diagnostic and imaging services include a permanent magnet MRI system, a 160-slice CT scan, high-resolution ultrasound for fetal and general imaging, ECHO, ETT, Pulmonary Function Testing (PFT), and advanced neurophysiology equipment.

We place strong emphasis on maintaining the highest operational standards through regular servicing, preventive maintenance, and timely technological upgrades, ensuring that our patients receive accurate, safe, and efficient care in line with evolving medical advancements.

Equally important is the strength of our multidisciplinary clinical team. Our highly experienced consultants, specialists, clinicians, and dedicated support staff work collaboratively to ensure excellence in patient care and service delivery around the clock. During 2024-2025, our consultant panel was further strengthened with the appointment of;

- Dr. Maryum Azher – Consultant, Psychiatry
- Dr. Jay Singh – Consultant, Neuro Surgery
- Dr. Samina Nadeem – Consultant, Obstetrics & Gynaecology
- Dr. Ajeet Lohana – Consultant, Gastroenterology
- Dr. Anam Siddiqui – Consultant, Gastroenterology
- Dr. Abdul Waheed – Consultant, ENT
- Dr. Rizwan Khan – Consultant, Vascular Surgery
- Dr. Syed Muzaffar Saleem – Consultant, Paediatrics
- Dr. Naseem Rashed – Consultant, Cosmetic Gynaecology
- Dr. Waseem M. Jaffrani – Consultant, Cardiology
- Dr. Raheela Mohsin – Consultant, Uro Gynaecology

- Dr. Fahad Haider – Consultant, Cardiothoracic Surgery
- Dr. Vijay Kumar – Consultant, Surgery & Allied
- Dr. Mariam Raza – Consultant, Hematology
- Dr. Midhat – Consultant, Neurology
- Dr. Afnan Raza – Consultant, Anaesthesiology
- Dr. Muhammad Shuja Farrukh – Consultant, ENT
- Dr. Syed Uzair Maqsood – Consultant, Paediatrics
- Dr. Ayesha Ahsan Shah – Consultant, Anaesthesiology
- Dr. Qurat Ul Ain Haroon – Consultant, Radiology
- Dr. Salman Matiullah Shaikh – Consultant, ENT
- Dr. Nadeem Naeem – Consultant, Endocrinology

Their expertise and dedication significantly strengthen our ability to deliver evidence-based, compassionate, and high-quality healthcare services.

With 24/7 availability of essential and specialized services under one roof, Medicare Cardiac & General Hospital remains committed to meeting the healthcare needs of our community while continuously enhancing patient experience, clinical outcomes, and operational excellence.

At Medicare Cardiac & General Hospital, we remain steadfast in our mission to deliver safe, reliable, and high-quality healthcare services to our community.

Message From The Chief Operating Officer

Mr. Syed Akhtar Mohsin

Chief Operating Officer
Medicare Cardiac & General Hospital

It is my pleasure to present our Annual Report 2024-2025 and reflect on another year of dedication, progress, and achievement across our organization.

Over the past year, we remained committed to delivering excellence through operational efficiency, quality improvement, patient safety, innovation, and sustainable growth. Despite evolving challenges, our teams demonstrated resilience, professionalism, and a strong commitment to achieving our organizational goals.

We continued to strengthen our systems and processes while focusing on enhancing service quality, improving patient experience, ensuring safety standards, and promoting a culture of continuous improvement. Through collaboration and shared responsibility, we have made meaningful progress toward building a more efficient and patient-centered healthcare environment.

Our achievements would not have been possible without the dedication of our employees, the trust of our patients, and the support of our leadership and stakeholders. Their collective efforts continue to drive our success and inspire future growth.

As we move forward, we remain focused on operational excellence, innovation, quality outcomes, and delivering services that meet the highest standards of care.

Thank you to everyone who contributed to our journey throughout the year. Together, we will continue to build a stronger and healthier future.

Message From The Head of Administration

Lt. Col. (R) Dr. Baqar Nawab

Head of Administration
Medicare Cardiac & General Hospital

At Medicare Cardiac and General Hospital, we remain committed to delivering safe, high-quality, accessible, and patient-centered healthcare services around the clock.

We are proud to provide comprehensive healthcare services under one roof, supported by dedicated medical, nursing, allied health, administrative, and support teams. Our services include emergency care, outpatient and inpatient services, intensive care, operation theatres, diagnostic and laboratory services, radiology, pharmacy, cardiac care, quality & patient safety, infection prevention and control, and other specialized clinical services.

Throughout the year, our focus remained on improving quality, patient safety, operational excellence, and patient experience while maintaining high standards of healthcare delivery.

This annual report reflects our achievements, performance indicators, continuous improvement initiatives, and the collective efforts of our teams in serving patients with compassion and professionalism.

We extend our sincere appreciation to our healthcare professionals, staff members, patients, and stakeholders for their trust, dedication, and continued support.

Together, we will continue striving for excellence and advancing healthcare services for our community.

Board of Trustees

The Board of Trustee of the Medicare Cardiac & General Hospital (MCGH) serves in an entirely honorary capacity. Comprising distinguished individuals from a wide range of fields, including banking, business, medicine, and research, the Board brings a wealth of experience and insight to the institution.

The Board provides strategic oversight of governance, financial stewardship, clinical programs, and resource generation, ensuring that the vision and mission of the Trust are upheld with integrity and purpose.

The following individuals served as members of the Board of Trustee during the year 2024-25

- Dr. Syed Tariq Sohail
- Mrs. Ghazala Tariq Sohail
- Dr. Syed Adnan Tariq Sohail
- Mr. Syed Bulent Sohail
- Ms. Maham Tariq Sohail

Hospital Leadership

The senior management team at Medicare Cardiac and General Hospital (MCGH) is dedicated to providing state-of-the-art, comprehensive care across our facilities. In 2024-25, the following individuals served in key leadership roles:

- Dr. Fadielah A. Sohail, Medical Director
- Mr. Syed Akhtar Mohsin, Chief Operating Officer
- Lt. Col. (R) Dr. Baqar Nawab, Head Of Administration
- Mr. Syed Zain Salman, General Manager Operations
- Dr. Shehla Naqvi, Consultant Human Resource
- Mr. Khalid Awan, Deputy Controller Finance
- Mr. Amir Zeeshan, Chief Marketing Officer
- Dr. Syed Wasif Ali, Head Of Physiotherapy
- Mr. Hayat Ali, Head Of Information Technology
- Mr. Sarwar Alam Khan, Manager Maintenance
- Mr. Syed Zia Uddin, Manager Quality & Patient Safety
- Mr. Asif Qadri, Manager Billing
- Mr. Saqib Shabbir, Manager Nursing
- Mr. Kaleem, Manager Human Resource
- Mr. Farhan Ahmed Siddiqui, Manager Hospital Information Management System
- Mr. Syed Muhammad Pervez, Manager Operation Theater
- Mr. Muhammad Naseer, Manager Radiology
- Mr. Irfan Zulfiqar, Assistant Manager Out Patient Department
- Mr. Nazar Hayat, Admin Manager
- Ms. Saima Aziz, Manager Laboratory
- Ms. Shabana, Manager Central Sterile Supply Department
- Mr. Sheraz, Assistant Manager Corporate Billing
- Mr. Kashif Zaidi, Assistant Manager Procurement

Journey of MCGH

Background:

Medicare Cardiac & General Hospital is a state-of-the-art tertiary care teaching hospital established at the Shaheed-e-Millat Campus to provide advanced healthcare services in the heart of the city. Officially inaugurated on 15 February 2015 by Professor Dr. Pirzada Qasim Raza Siddiqui, the hospital was founded with a vision to deliver high-quality, affordable, and accessible healthcare while strengthening undergraduate and postgraduate medical education. The inauguration ceremony was attended by Prof. Dr. Syed Tariq Sohail, Mr. Syed Adnan Sohail, distinguished doctors, corporate representatives, and faculty members of Jinnah Medical & Dental College. During the event, Professor Dr. Abdus Samad delivered the welcome address, Lt. Col (R) Dr. Baqar Nawab (Head of Administration), and Mrs. Rozina Nizar (Nursing Manager) briefed guests on the hospital's modern facilities and patient-centered services.

Operational since 1 December 2014, Medicare Cardiac & General Hospital has expanded into a 220-bed healthcare institution offering comprehensive diagnostic and therapeutic services for cardiovascular and general medical conditions. Clinical facilities include dedicated inpatient cardiac wards, private rooms, a 13-bed ICU, 5-bed HDU, 8 fully equipped operation theatres, and 2 advanced catheterization laboratories. The hospital provides 24/7 emergency care, emergency angiography, angioplasty, adult and paediatric cardiac bypass surgery, thoracic surgery, medicine & allied, surgery & allied, neurology, orthopaedic, and general surgical procedures. Since its inception, the hospital has remained committed to clinical excellence, innovation, leadership development, teamwork, and compassionate patient-centered care.

Milestones

Achievements:

- First CABG in 2015
- First Knee Replacement in 2015
- Achieved ISO 9001 Certification in 2018
- Established Free Covid 19 Vaccination Center in 2020
- Achieved Cath Lab License From The Sindh Healthcare Commission in 2021
- Preventive Cardiac Conference Held at MCGH in 2022
- Achieved Regular License From The Sindh Healthcare Commission in 2023
- Inauguration of the Third Floor in 2024
- Inauguration of the Endoscopy/ Bronchoscopy Suite in 2024
- Expansion of Clinical Lab in 2024
- Inauguration of the Wing 03 in 2025
- Inauguration of the Department of Rehabilitation Sciences in 2025
- Inauguration of Occupational Therapy in 2025
- Inauguration of Aesthetics & Dermatology in 2025

Key Performance Indicators (2024-25)

In 2024-2025, Key Performance Indicators (KPIs) were systematically monitored across all hospital departments as part of a well-established quality improvement and patient safety framework, ensuring continuous evaluation of clinical, operational, and support services.

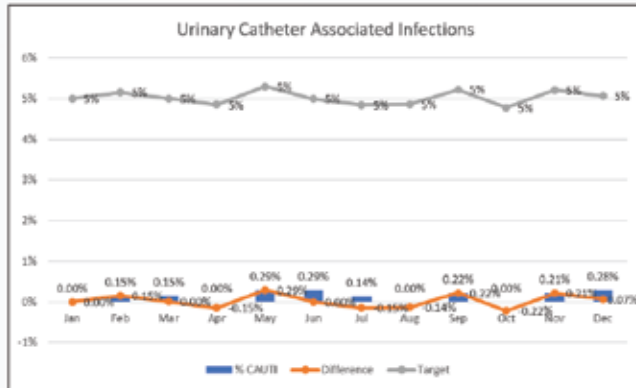

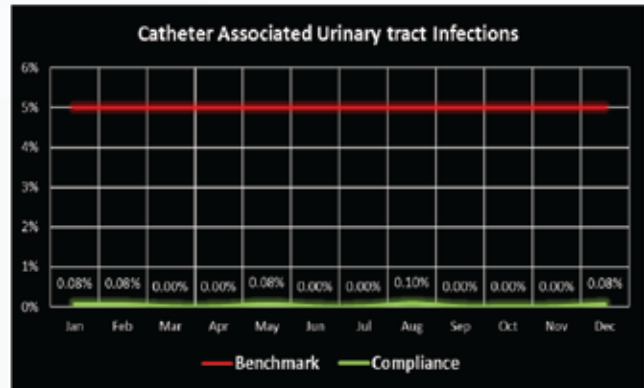

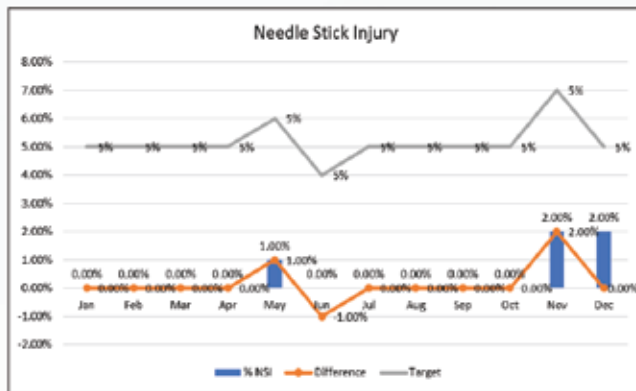

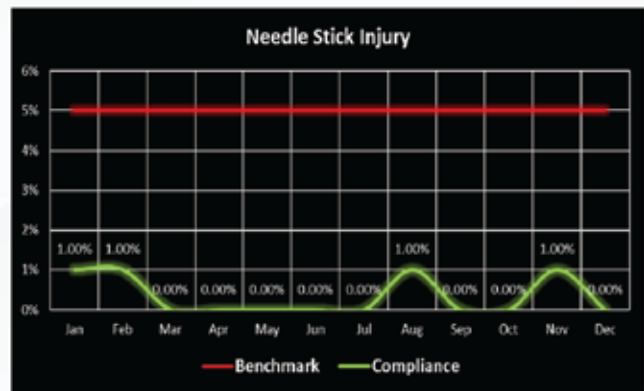

Nursing department, KPIs included hospital-acquired pressure ulcers, medication administration errors, IV phlebitis rates, and patient fall risk incidents, with a strong focus on prevention, compliance, and continuous improvement in patient care practices. Infection Prevention and Control (IPC) department monitored critical indicators such as Catheter-Associated Urinary Tract Infections (CAUTI) and Needle Stick Injuries (NSI), supported by ongoing surveillance and corrective actions. IT department tracked complaint resolution and system-related issue addressing to ensure smooth digital operations, while the Maintenance department monitored complaint response time and resolution efficiency to maintain uninterrupted facility functionality. Radiology, turnaround time (TAT) for reporting was closely monitored to ensure timely diagnostic support. Biomedical Engineering department tracked preventive maintenance (PPM) of equipment and equipment downtime to ensure optimal functionality of critical medical devices. Central Sterile Services Department (CSSD) monitored equipment malfunctioning incidents and sterile packing errors to maintain sterilization standards and patient safety. Operation Theatre (OT) monitored utilization rates to ensure efficient use of surgical services. Pharmacy department tracked adverse drug reactions (ADR), dispensing errors, and clinical interventions to enhance medication safety and pharmaceutical care. Health Information Management System (HIMS) monitored timely delivery of OPD files and proper receipt of discharged patient files to ensure efficient medical record flow. Laboratory department monitored turnaround time for reporting, panic/critical value reporting, and pre-analytical sample handling processes to ensure accuracy, timeliness, and reliability of diagnostic results.

Overall, KPI monitoring remained an integral and continuous process across all departments, reflecting strong commitment to quality, efficiency, and patient safety throughout the hospital.

Emergency Department:

Our Emergency Department is staffed by a highly qualified and experienced team of physicians who provide round-the-clock emergency care services, ensuring timely medical attention 24 hours a day, 7 days a week. The department is led by dedicated professionals including Dr. Inam-ul-haq (MBBS, Dipcard), Dr. Saad Abdur Rehman (MBBS, FCPS), serving as Emergency Physician since

January 2019. Supported by trained nursing and paramedical staff, our well-equipped 12-bed Emergency Department manages a high volume of patients daily, delivering prompt diagnosis, effective treatment, and compassionate care. Every day, numerous patients seek urgent medical assistance through our ER and leave with renewed hope, improved health, and confidence in our commitment to quality healthcare.

Intensive Care Unit:

Our Intensive Care Unit (ICU) is a modern and fully equipped critical care facility designed to provide advanced medical care for critically ill patients requiring close monitoring and specialized treatment. The unit consists of a total of 13 beds, including 3 single-bedded cubicles to ensure privacy and enhanced patient care. Our ICU is led by a team of highly qualified consultants including Dr. Tanzila (MBBS, Dipcard), Dr. Maheen (MBBS, FCPS), Electrophysiologist, and Dr. Barera (MBBS, FCPS), Consultant Internal Medicine. Supported by experienced nursing and technical staff, the ICU operates with state-of-the-art equipment and evidence-based practices to deliver timely interventions, continuous monitoring, and compassionate care. Every day, our dedicated team works tirelessly to improve outcomes, restore health, and provide hope to patients and their families during critical moments.

Neonatal Intensive Care Unit:

Our Neonatal Intensive Care Unit (NICU) is a specialized and well-equipped facility dedicated to providing advanced care for newborns requiring intensive monitoring and treatment. The unit is equipped with a total of 9 incubators, ensuring a safe and controlled environment for premature and critically ill neonates. Our NICU is led by experienced consultants including Dr. Syed Uzair Maqsood (MBBS, FCPS), Consultant

Pediatrics and Neonatologist, and Dr. Amin Ali (MBBS, FCPS), Consultant Pediatrics and Neonatologist. Supported by highly trained nursing and technical staff, the unit is committed to delivering round-the-clock compassionate care, advanced neonatal support, and timely medical interventions. Every day, our dedicated team strives to give newborns the best possible start in life while providing reassurance and support to their families.

Quality & Patient Safety Departments

The Quality and Patient Safety Department within a hospital plays a pivotal role in ensuring the delivery of high-quality healthcare services while prioritizing patient safety. Quality and Patient Safety Department in Medicare Cardiac and General Hospital is dedicated to systematically monitoring, evaluating, and improving various aspects of patient care to enhance overall quality and minimize risks. Through the implementation of rigorous quality assurance measures and the fostering of a culture centered on safety, the Quality and Patient Safety Department contributes significantly to the hospital's mission of providing optimal and secure healthcare experiences for patients.

Structure of Quality & Patient Safety Department

Worked in strengthening clinical governance committees. Including:

1. Quality and Patient Safety Committee
2. Mortality & Morbidity Committee
3. Infection Prevention and Control Committee

Dimensions:

Division of Quality Improvement & Patient Safety is working in following dimensions.

Data Management:

Includes Feedback management system, KPIs data monitoring and Reporting.

Monitoring & Evaluation:

Includes Incident Reporting, Clinical Audits, Floor rounds.

Quality Improvement:

Includes Process Analysis, Quality projects, Awareness Sessions, Research, E-Solutions.

Risk Management:

Including use of HIRA (Hazard Identification and Risk Assessment) techniques.

Licensing & Accreditations:

Sindh Health Care Commission (SHCC), Pakistan Medical and Dental Council (PMDC).

Quality & Patient Safety Committee

The Quality and Patient Safety Committee is a multidisciplinary governing body within the healthcare organization that plays a central role in ensuring the delivery of safe, effective, and high-quality patient care services.

The primary goal of this committee is to provide structured supervision, oversight, and strategic direction in evaluating the appropriateness, effectiveness, and efficiency of all clinical and non-clinical services delivered within the hospital. It ensures that patient care practices are aligned with established clinical guidelines, hospital policies, regulatory requirements, and international standards of healthcare quality.

The committee is responsible for continuously reviewing clinical outcomes, identifying gaps in care delivery, and promoting a culture of continuous quality improvement across all departments. It actively monitors patient safety indicators, adverse events, near-miss incidents, infection control compliance, medication safety, and overall service performance.

Mortality & Morbidity Committee

Mortality & Morbidity committee is to evaluate clinical outcomes in a structured and non-punitive manner to identify preventable factors, clinical gaps, system failures, and opportunities for improvement in patient care. It plays a vital role in enhancing patient safety, improving clinical standards, and reducing the recurrence of adverse events.

The committee conducts detailed case reviews of selected or all mortality and morbidity cases, focusing on diagnostic accuracy, appropriateness of treatment, timeliness of interventions, adherence to clinical protocols, and overall quality of care provided.

Infection Prevention & Control

In a hospital setting, Infection Prevention and Control (IPC) is a critical department focused on safeguarding patients, healthcare workers, and visitors from the spread of infectious diseases. In MCGH Division of Infection Prevention and Control (IPC), is dedicated to implementing comprehensive strategies and protocols to prevent the occurrence and transmission of infections within the healthcare facility. By emphasizing rigorous hygiene practices, proper sanitation, and adherence to infection control measures.

Data Management:

Collection, analysis and monitoring of KPIs, HAls and Communicable diseases related data.

Monitoring & Evaluation:

Includes Surveillance of Hospital acquired infections, Audit rounds of clinical and non- clinical areas and Reviews on standard precaution of infection prevention and control, Review of waste management practices.

Quality Improvement:

Includes Process Analysis, Quality projects, Awareness Sessions, Research, E-Solutions.

Risk Management:

Includes IPC related Spot trainings and General trainings of healthcare staff.

Fire & Health Safety Department

Fire and Health Safety in a hospital is a dual-focused department that addresses the well-being of individuals within the healthcare environment. Division of health and fire safety is dedicated to implementing measures that ensure both the physical health of patients and staff and protection against the risks associated with fires. Health and Fire Safety professionals work collaboratively to establish and enforce protocols for infection prevention, occupational health, and emergency response. By integrating health and fire safety practices, the department aims to create a secure healthcare setting where patients can receive quality care without compromising their safety, and where healthcare professionals can work in an environment equipped to handle emergencies effectively.

Fire Safety:

Includes Training of staff related to fire safety, Calibration and replacements of fire safety equipment's including fire extinguishers, Fire hydrants etc.

Risk Management:

Assessment, Analysis and reporting of risks, Development of risk registers, and training of employees over HIRA (Hazard Identification and Risk Assessments technique).

Occupational Health and Safety:

Incident analysis and reporting, Monitoring and inspections for employee safety.

Fire & Health Safety Committee

The health and safety committee serve as a platform for management and employees to collaborate on health and safety problems. The committee is responsible for implementing a systemic process to identify the factors within the hospital that may place patients, visitors, or staff members at risk.

This includes collecting and aggregating adverse event reports from all sources. The committee assures patient, public, and employee safety and promotes a culture of trust as a core value when evaluating assurance, quality governance, and risk.

The committee oversees fire safety and emergency preparedness within the hospital. This includes monitoring compliance with fire safety regulations, reviewing fire risk assessments, ensuring availability and maintenance of fire detection and firefighting equipment, and coordinating fire drills and evacuation plans.

The Fire and Health Safety Officer are responsible for monitoring both fire and occupational health and safety practices, identifying fire and safety hazards, ensuring implementation of preventive and corrective measures, and promoting a safe environment for patients, visitors, and staff.

Inauguration of Wing 03

In 2025, Medicare Cardiac & General Hospital marked another milestone with the opening of Wing 03, further expanding its patient care and outpatient services. The new wing houses consultation clinics, the Department of Rehabilitation sciences, Aesthetics, Pulmonary Function Testing (PFT), ECHO services, Occupational Therapy (OT), and Executive Dental services. This expansion reflects the hospital's ongoing commitment to enhancing accessibility, multidisciplinary care, and modern healthcare services for the community.

Department of Rehabilitation Sciences

Physiotherapy and Rehabilitation Department was established on 21 October 2025 to provide specialized therapeutic care and recovery services for patients. The department is led by highly qualified professionals including Dr. Syed Wasif Ali (MSPT, ADPT, BPT), who has served at Medicare for 10 years and brings more than 25 years of overall professional experience in his field, and Dr. Syed Sultan Ahmed Zaidi (DPT), who holds additional certifications from the UK in Dry Needling and Dry Cupping, with more than 5 years of experience. Operating daily from 9:00 AM to 9:00 PM, the department offers a wide range of services including Cardiac Rehabilitation, Occupational Therapy, and Pre- and Post-Natal Pain Management & Rehabilitation. The department plays an important role in improving mobility, functional independence, pain relief, and overall patient recovery through evidence-based rehabilitation programs.

Inauguration of Occupational Therapy

Our Occupational Therapy Department at Medicare Cardiac & General Hospital (MCGH) was established in November 2025 and has since been providing structured rehabilitation services to improve patients' functional independence and quality of life. The department is led by Dr. Summaiya Jamil (Clinical Occupational Therapist), holding an ADOT from Ziauddin University and BS Occupational Therapy from Dow University of Health Sciences. She is available for clinical services from Monday to Saturday (10:00 AM to 6:00 PM), managing a wide range of paediatric and adult rehabilitation cases including cerebral palsy, autism, intellectual disability, hydrocephalus, clubfoot, and hand rehabilitation.

Inauguration of Aesthetics & Dermatology

Medicare Cardiac & General Hospital offers advanced dermatology and aesthetic medicine services through experienced consultants, including Dr. Fatima Hasan and Dr. Farina Zameer, both of whom are AAAM USA certified in aesthetic medicine. The department provides comprehensive

management of all conditions related to skin, hair, and nails along with a wide range of advanced aesthetic and dermatological procedures. These include skin biopsy, electrocautery, cryotherapy, intralesional injections, Platelet Rich Plasma (PRP) therapy, Botox, dermal fillers, laser hair removal, CO₂ resurfacing laser, and Excimer laser treatments. The service is focused on delivering safe, evidence-based, and modern aesthetic care using advanced technology under expert clinical supervision.

Inauguration of the Third Floor:

In November 2024, Medicare Cardiac and General Hospital successfully inaugurated its third floor, further expanding inpatient capacity with well-designed private and semi-private rooms focused on patient comfort and convenience. The floor comprises a total of 18 beds, including 14 private rooms and 02 semi-private rooms. It accommodates admissions for a wide range of specialties including General Medicine, Surgery, Paediatrics, Gynaecology, and other clinical services. Operations are supported by experienced nursing staff and Resident Medical Officers (RMOs) working in three shifts to ensure continuous, high-quality patient care. The unit is well-equipped with modern medical facilities and infrastructure, ensuring safe, efficient, and patient-centered healthcare services.

Expansion of Laboratory:

In 2024, Medicare Cardiac and General Hospital reorganized and strengthened its Laboratory Department on a department-wise basis, enhancing the existing services in Biochemistry, Microbiology, and Hematology. A comprehensive range of diagnostic tests was already being performed; however, the services were further structured and streamlined to improve efficiency, accuracy, and reporting

standards. The laboratory continues to deliver reliable and timely results, supported by advanced analyzers and technologies sourced from leading manufacturers in the USA, Japan, and Germany, ensuring high standards of quality and diagnostic excellence.

Radiology: Installation of CT Scan 160 Slice:

- Multi slice - 3D Advancement
- Ultra-low dose radiation.
- Less acquisition time
- Fast image reconstruction all specialized CT examination of full body
- CT Angio

Expansion of Prayer Area:

Developed new and improved prayer areas separately for male and female visitors, patients, and staff to enhance comfort, accessibility, and convenience.

Baby Feeding Areas:

Developed new dedicated baby feeding areas to provide mothers with a comfortable, private, and hygienic environment, enhancing convenience and promoting a family-friendly atmosphere.

Green Initiative:

Medicare Cardiac and General Hospital is actively involved in the care and maintenance of a nearby community park by providing regular watering, fertilization, and plantation activities. A significant number of trees and plants have been planted, creating a green and healthy environment that serves as a valuable source of oxygen and promotes wellbeing. This initiative greatly benefits students, attendants, and patients by providing a refreshing natural space that supports physical and mental health.

EVENTS & CMEs

Breast Cancer Awareness Session

Medicare Cardiac & General Hospital organized a Breast Cancer Awareness Session as part of its commitment to preventive healthcare and community education. The session aimed to increase awareness regarding early detection, risk factors, screening methods, and the importance of timely diagnosis in improving treatment outcomes. Healthcare professionals educated participants on self-examination techniques, clinical breast examination, and the significance of regular screening. The initiative also emphasized breaking social stigma and encouraging open discussion about breast health. This awareness activity reflects the hospital's ongoing dedication to patient education, preventive medicine, and promoting a healthier community through early intervention and awareness program.

World Diabetes Day

Moments of Empowerment! The World Diabetes Day Awareness Session at Medicare Cardiac & General Hospital was a success, thanks to our insightful speakers:

Ms. Erum Ghafoor - President, National Association of Diabetes Educators of Pakistan
 Dr. Munira Abbasi, MD - Diplomate in Internal Medicine, Endocrinology & Metabolism, and Lifestyle Medicine
 Dr. Shehla Naqvi - MBBS, MCPS, MRCGP, Diabetes (Dip) - Medicare Hospital
 Dr. Urooj Riaz, MBBS, FCPS - Medicare Cardiac & General Hospital

A special thanks to everyone who attended and contributed to this mean

Independence Day

Honoring our homeland with pride! Here are the unforgettable moments from Medicare Hospital's Independence Day celebrations. Together, we celebrate freedom and our nation's bright future.

Cake cutting was done by senior most consultant of Medicare Cardiac & General Hospital, Dr Habiba Hasan who has been with Medicare for 20 years

International Nurses Day

On this International Nurses Day, Medicare Cardiac & General Hospital proudly celebrates the compassion, dedication, and unwavering commitment of our nurses. Your healing hands, selfless care, and tireless service make a meaningful difference in the lives of every patient, every day.

New Year Celebration

Here's how we welcomed 2025 with joy, laughter, and unforgettable memories! From dazzling decorations to cheerful faces, every moment of the celebration was pure magic.

Blood Donor Drive

Medicare Cardiac & General Hospital has organized blood donation camp for thalassemia patients of Saylani Welfare International Trust. We are grateful for the kindness you all have demonstrated by this contribution.

We are glad to organise a Blood Donation Camp
at our hospital to support the
Thalassemia patients of

as they provide free-of-cost blood and
treatment to all deserving patients.

Appreciate the staff working here. & My wife has been attended patiently. The staff has worked so much specially Banatullah, Aroon, Saba, Gohar & more. Really loved and found myself at peace while my wife was admitted here. Thank you for your kind service. The visit for the patient and attendant has been really great & relaxing. At last loved the services provided by hospital. Dr. Saba Agha is really good & Dr. I would like recommending her to my family & friends.

Excellent Staff! I myself am a consultant Rheumatologist, leading Rheumatology department in Indus Hospital. I also am working as non full time in Little Patel Hospital. Also previously worked up in Zindagi Hospital. So far in over 10 years of working in the field the staff in medicine was extremely professional, respectful, courteous. Specially compared to other hospital I have worked in. Overall very good experience from Indus.

NEW

Here's a polished 5-star review:

★★★★★

Highly recommended

We had an excellent experience throughout our maternity journey. Dr. Sadia Iqbal is an outstanding doctor—professional, transparent, calm, and incredibly reassuring. She takes the time to listen to every concern, explains everything clearly, and makes you feel confident and comfortable throughout the process.

Our delivery was a normal delivery. Dr. Sadia advised us to come to the hospital at night, and everything progressed exactly as she had anticipated. The induction of labor (IOL) was managed smoothly, and once active labor began, our baby was delivered in less than an hour.

We took the private room. The room was spacious, clean, and had all the required amenities. The entire hospital staff was exceptional. The midwives were caring, attentive, and highly supportive, while the security guards were courteous and cooperative, making the overall experience even more pleasant.

After delivery, every step—from the nursery, NICU assessment, vaccinations, and pediatrician visits to all routine newborn care—was well organized and hassle-free. The billing, discharge process, and all administrative formalities were handled efficiently and smoothly.

We are truly grateful to Dr. Sadia Iqbal and the entire hospital team for making one of the most important moments of our lives such a positive and memorable experience. Highly recommended.

My brother Muhammad Aftab Anwar was admitted to Medicare Hospital with acute pancreatitis. I would like to sincerely thank Dr. Ajeet Lohana and the entire nursing team for the care he received during his ongoing treatment.

Dr. Ajeet Lohana was outstanding, highly professional, and humble throughout the process. We are also grateful to the on-duty doctors from the HDU, CCU, Cardiac, and General Ward, including Dr. Aleena, Dr. Hamza, Dr. Tanzeela and Dr. Mahnoor, for their dedication and support.

Heartfelt thanks to the nursing staff Shujat uddin UR Sana, Anil, Izhar, Mudassir, Mahadev, Jawad Ali, Nida, Rumesa, Maryam, Sahil, Gaurav, Nabeel, Adnan, Zariq, Aamir, Osama, Owais, Mubashir, and Shabbira, who were consistently caring and supportive.

We are also very grateful to the physiotherapist Muntaha, nutritionist Kanza, the porters Junaid, Ghulam, Ramesh, and Ali Hassan, as well as the cleaning, security and cafeteria staff. Every member of the hospital treated my brother and our family with kindness and respect. We will always remain deeply thankful.

VISION

To set local and global standards for quality patient outcomes – creating a culture of excellence to promote a transformative experience for the 21st century clinicians, educators and researchers to benefit all humanity.

MISSION

We are committed to develop well-rounded academicians, thinkers, clinicians and researchers by strengthening a global view, broadening intellectual foundations and teaching effective communication. It is our aspiration to cultivate creative and critical thinking skills for problem solving, sensitive to cultural and ethical values and responsibilities. Our graduates are role models and society leaders

PROGRAM OBJECTIVES

JMDC's program curriculum conforms to the regulations and recommendations of the Pakistan Medical Commission and is designed to integrate academic knowledge and clinical experience which emphasize the following goals:

- Help students acquire relevant knowledge
- Develop student communication skills, both oral and written
- Promote team work
- Instill compassion and empathy
- Uphold Professionalism

VISIONARY

The decision taken by the Trust to establish a new medical college was based on its desire to raise the standards of medical education in Pakistan. Conscious that a high level of professional competence has to be attained by medical students, the Trust planned a system of instruction in which the emphasis is on interactive, small group tutorials, problem-based and community-based learning, relevant to our particular culture.

As the world is shrinking rapidly, Jinnah Medical and Dental College students are encouraged to keep abreast of the latest developments in the medical sciences. Other vital aspects of education, too often ignored by medical educationists are emphasized to include communication skills, language skills and courses in humanities. As part of the curriculum, students will also be trained to write and speak effectively, giving them the confidence to pursue graduate studies and participate effectively in seminars and conferences at national and international levels. The College desires its' students to develop leadership qualities and a team spirit.

The strategy for fulfilling this Mission is based on student-teacher interaction, community-based instruction, and further support in the form of a good library, audio-visual aids, skills laboratory, computer-assisted learning and an active humanities department

Prof. Dr. Zaki Hasan

PRINCIPAL OF MEDICAL COLLEGE

As we reflect on the 2024-25 academic year, Jinnah Medical & Dental College continues to solidify its reputation as a cornerstone of medical education excellence. Our mission remains clear: to empower the next generation of healthcare leaders through top-tier knowledge and a commitment to human-centric care.

This past year, our faculty has gone beyond traditional instruction, embracing contemporary methodologies and pioneering research that prepares our students for an evolving global landscape. By integrating hands-on clinical exposure with our cutting-edge laboratory and library facilities, we have ensured that our graduates are not just technically proficient, but versatile and well-rounded professionals.

We take immense pride in the milestones achieved this year and remain dedicated to fostering a nurturing, rigorous environment where innovation thrives.

Dr. Ambreen Usmani

Principal of Jinnah Medical & Dental College

PRINCIPAL OF DENTAL COLLEGE

It is a privilege to present the 2024-25 annual overview for Jinnah Dental College. This year, our institution has remained steadfast in its commitment to our founding pillars: academic excellence, clinical mastery, and ethical community service.

Our achievements are the direct result of the synergy between our state-of-the-art infrastructure and the world-class expertise of our faculty. Together, we have cultivated a learning environment that delivers premier clinical training. As we progress, we remain dedicated to our primary objective: graduating skilled professionals equipped to make a transformative impact on public health.

By bridging the gap between scientific theory and practical application, we continue to set the benchmark for dental education nationwide. We look forward to a future defined by innovation and a continued legacy of excellence.

Prof. Dr. M. Junaid Lakhani

Principal of Dental College

LEARNING OUTCOMES

- Develop insight and curiosity for acquiring contemporary knowledge and skills

Department of Medical Education

DEPARTMENT OF MEDICAL EDUCATION

PURPOSE

The need for Department of Medical Education is because of several factors such as curriculum reforms, need for faculty training, new methods for student selection, advances in medical informatics, the requirements from quality assurance and accreditation bodies, and education becoming a viable faculty career track. The Department is proposed to fulfil all these needs.

HOW WILL DECISION BE TAKEN?

The decisions will be taken by consensus of the member of Medical Education with the approval of Dean.

FREQUENCY OF MEETINGS

As required

MODE OF COMMUNICATION

- Face to face
- Online meetings (COVID Lockdown)
- Email
- Workshops

COMMITTEE DESIGNATIONS

Incharge: Dr. Shazia Junejo

MEMBERS

Prof. Dr. Fadieleh A. Sohail
Prof. Dr. Atif Mahmood
Prof. Dr. Junaid Lakhani
Prof. Dr. Marium Iqbal
Dr. Fauzia Akhter

INVITED MEMBERS

Medical Educationist both nationally and internationally will be invited from time to time to offer their expert advice.

DEPARTMENT OF MEDICAL EDUCATION

NUMBER OF MEMBERS: 06

CRITERIA FOR SELECTION OF MEMBERS

Medical Educationists, or those members or faculty who are academically active and experienced.

REVIEW OF TERMS OF REFERENCE & MEMBERSHIP

Annually or when required.

FUNCTIONS OF THE DEPARTMENT OF MEDICAL EDUCATION

CURRICULUM CHANGE

Medical curricula around the world are undergoing reform. The introduction of new student selection criteria, integration of basic and clinical sciences, emphasis on relevance, increased attention to personal and professional development, problem-based guided learning and self-directed learning and E-learning.

ASSESSMENT

It follows a sound and systematic assessment organization for 5-years modular, organ system based, integrated curriculum for the delivery of medical education leading to qualification of MBBS degree. This assessment fulfils all the requirements as laid down by the PMDC. Regular TOS is made for modules, midterm and pre-professional examinations. Decisions are made on the assessment results for both students and faculty, and implemented in the college.

ACCREDITATION REQUIREMENTS

Accreditation and quality assurance bodies are demanding greater scrutiny of the education process, the number and qualifications of teachers and teaching/learning and assessment methods. This has resulted in the design of outcome-based curricula, audits of teaching, and appraisal activities that are now normal processes in many medical schools around the world. The department will provide major support for these initiatives and a home base for staff and other departments involved in this process.

TEACHER TRAINING

The increasing complexity of the curriculum with its new educational strategies, new assessment tools and the increased use of learning technologies, has led to the recognition that all those who teach require some background and training in education. Teacher training has proved pivotal in stimulating curricular changes and is becoming compulsory for all new staff members. The department will collaborate with other faculties to ensure continuous teacher training. Their teaching practice will be reviewed as part of their regular appraisal and consistently poor performance will be reported by the department to the Dean.

RESEARCH

An essential function of the department will be to encourage Research within the institution. The department will play an important part in creating a culture of research by innovating, developing new approaches to medical education and publishing their findings. Communication concerning research such as running journal clubs, circulating medical education newsletters are ways that will be used by the department for promoting this culture.

TEACHING

The major role of the department in the teaching aspect of their function is to help equip the teaching staff with the necessary abilities to undertake effectively their roles as medical teachers. Also continuing medical education (CME) activities, conferences, workshops on evidence-based medicine and running the clinical skills laboratory.

SERVICE PROVISION

The service areas include: serving on committees and task forces; consultancies to educational providers; curriculum development, planning and administration, for example, assistance in defining objectives and curriculum organization; assessment and evaluation, for example, curriculum and program evaluation, test administration and scoring, developing and maintaining examination databanks.

ACADEMIC DEVELOPMENT & SUPPORT

An important role of the department is to provide an academic home for and nurture the careers of faculty members wanting to focus on educational scholarship and develop as future medical educationists.

1. Details of Number of CHPE sessions:

During the reporting period, a total of 1 CHPE session was conducted to support faculty development and enhance teaching practices.

Date	CHPE
November 2024 to May 2025	Conducted 3rd Batch of Certified Health Profession Education (CHPE) Successfully in Collaboration with Jinnah Sindh Medical University (JSMU) For Both Internal and External Faculty.

2. Number of Workshops:

A total of 16 workshops were conducted during the reporting period. These sessions aimed to enhance academic, clinical, and research competencies among students and faculty members. The workshops covered a diverse range of topics including dermatology, research methodologies, and the integration of Artificial Intelligence (AI) in education and healthcare.

Campus Facilities

CAMPUS FACILITIES

JMDC has two campuses Shaheed-e-Millat Campus and Korangi Campus with the following facilities on both campuses:

AUDITORIUMS/LECTURE HALLS

All are air conditioned and equipped with multimedia facilities.

SEMINAR ROOMS

Air conditioned to accommodate small groups for tutorials/discussions.

CAMPUS FACILITIES

MUSEUMS

Equipped with specimens, models, diagrams and slides to aid study.

LABORATORIES

Fully equipped for students to perform experiments and complete practical work.

CAMPUS FACILITIES

DISSECTION HALL

A large hall with cadavers dedicated to teaching gross anatomy.

SPORTS GROUND

3-acre multi-purpose area for students to play football, cricket, basketball and athletics.

CAMPUS FACILITIES

LIBRARY & DIGITAL LIBRARY

Qualified librarians are available to guide students to make the best use of library resources.

CAFETERIAS/INDOOR GAMES FACILITIES

Serves snacks and meals plus students can relax and enjoy TV, Badminton, Table tennis, Carrom board, Fooseball & Snooker.

CAMPUS FACILITIES

BIOMEDICAL RESEARCH CENTER (BRC) (SHAHEED-E-MILLAT CAMPUS)

The Sohail University has taken a leap forward to enrich its educational resources, by setting up Biomedical Research Center (BRC). The center is temperature-controlled research facility divided into cell culture, molecular biology, biochemistry and cell biology sections. The center is equipped with state-of-the-art laboratory equipment.

Additionally, the university has hired a team of foreign qualified basic science research faculty to advise & facilitate research of its undergraduate, graduate & postgraduate students.

AFFILIATED HOSPITALS

Sohail Trust Hospital

Sohail Trust Hospital

INTRODUCTION

Sohail Trust Hospital is a 284 bed hospital serving the underprivileged patients of Karachi, located in the Korangi Industrial Area, spread over 6 acres of land. There is an exponential increase in the patient volume as people from all across Pakistan are coming to Sohail Trust Hospital to avail quality healthcare services free of cost. To cater the growing demand, STH management has decided to further expand its services and facilities while maintaining the highest quality standards. Currently, Sohail Trust hospital is a multidisciplinary hospital providing premium healthcare in an impressive, state-of-the-art facility providing free of cost services to the underprivileged.

VISION

To Provide quality healthcare to all.

MISSION

To improve the health status of the communities we serve by delivering excellent clinical services, ensuring quality and patient safety.

Message From Director Hospital Administration

As the Medical Director of Sohail Trust Hospital, I am honored to share our achievements for the 2024-2025 fiscal year. This year marked a pivotal shift in our journey toward becoming a leading tertiary care institution. Through strategic resource management and precise budgeting, we successfully increased our clinical capacity and operational efficiency—all while upholding our core promise of affordable healthcare.

Key milestones include the optimization of patient care pathways and a major leap in our digital transformation. By prioritizing data integrity and modern medical record management, we have empowered our clinical decision-making like never before. Above all, our dedication to "equitable care" remains steadfast, ensuring that financial constraints never prevent life-saving treatment. These successes belong to our tireless medical and support teams, and as we look ahead, we remain committed to evolving alongside the healthcare needs of our community.

Development & Renovation

In the reporting year, the hospital has achieved most of its targets as listed below.

CLINICAL

One of our proudest achievements over the past year has been our continued commitment to providing free treatment to underprivileged patients. We firmly believe that access to quality healthcare should be a basic human right, and we are proud to have made a positive impact on the lives of those who have limited access to medical care. Some of our achievements in this area are following.

- Initiated specialist clinics like cardiology, nephrology, endocrinology and reproductive health.
- New OT for Obstetrics and Gynecology Department
- Initiation of Audiometry service in the ENT Clinic
- Acquiring modern 32 slice CT Scan and Echocardiography machines
- Enhanced laparoscopic surgeries
- Improved number of beneficiaries and their satisfaction with the provided medical and diagnostic services
- Initiated Nurse Aid Program

COMMUNITY SERVICE

In addition to the clinical services, the hospital has also made significant strides in promoting community health and well-being through various initiatives as mentioned below. These initiatives have allowed us to engage with our community and raise awareness about the importance of preventive healthcare.

- Free treatment of eligible patients through Zakat and Donations
- Frequent free medical camps (underprivileged patients) complemented with distribution of free medicines.
- Free medical camps and distribution of medicines and ration in the flood affected areas of Sindh
- Free Cataract Surgeries
- Breast Cancer Awareness and Screening

QUALITY ASSURANCE ACTIVITIES

Quality is the responsibility of everyone who works at the Sohail Trust Hospital. Equally important is the commitment of each member of the staff to understand the purpose and future ambitions of the hospital administration. The planning and quality operations of the hospital take place within a quality assurance framework as per local and international healthcare standards. Effective planning and efficient implementation of plans are essential to the establishment of a high-quality processes of monitoring and reviewing the effectiveness of the operational activities.

- Continuous training of doctors, nursing and janitorial staff.
- Established Managerial and Clinical Quality Improvement Committees.
- Established Infection Control Committee.
- Review and revision of SOPs for clinical departments.
- Implementation of Infection Control Program.
- Implementation of Standards for Medical Record Documentation.
- Monitoring of Key Performance Indicators of departments.
- SWOT Analysis and Strategic Plan of the Hospital.
- Nursing Strategic Plan.
- Environment and fire safety trainings.
- Patients Feedback and Incidence Reporting Form.
- Presentation on Communication Skills and Service Excellence for nursing and support staff.

Facilities & Clinical Services

Facilities

24 HOURS EMERGENCY

Emergencies are unexpected and unpredictable. In most emergency situations, time is of the essence. The Emergency Services at Sohail Trust Hospital is open 24 hours a day, providing free-of-cost treatments or at highly subsidized rates and accepts patients of all ages, with all types of emergencies. We aim to provide comprehensive and compassionate emergency medical care that is appropriate to the level of medical urgency needed, as presented by the patient. We, at Sohail Trust Hospital, are extremely committed to providing the best and Urgent care to all Emergency & Trauma patients.

GENERAL OPD / FILTER CLINIC

Patients are screened, investigated, diagnosed and referred to specialist clinics or other specialities as needed. "The 'filter clinic,' which would serve as an outpatient department (OPD), has been developed with an aim to avoid unnecessary load in the emergency department,"

OPERATION THEATER

Patients are screened, investigated, diagnosed and referred to specialist clinics or other specialities as needed. "The 'filter clinic,' which would serve as an outpatient department (OPD), has been developed with an aim to avoid unnecessary load in the emergency department,"

IN-PATIENT

Patients are screened, investigated, diagnosed and referred to specialist clinics or other specialities as needed. "The 'filter clinic,' which would serve as an outpatient department (OPD), has been developed with an aim to avoid unnecessary load in the emergency department,"

DAY CARE

Sohail Trust Hospital provides a Day Care facility where a patient wouldn't have to stay overnight following a procedure. They undergo surgery or procedure at the Day care, are kept for a few hours for observation and if all seems well, discharged. They or whoever accompanied them are given instructions on post-op or post-procedure care and reportable signs and symptoms. For example some cases of Cataract surgery, a few ENT procedures

24 HOURS DIALYSIS SERVICE

Sohail Trust Hospital successfully inaugurated FREE Dialysis services on January 20, 2021. Around 90 per cent of patients that seek treatment at Sohail Trust Hospital are under privilege and cannot afford the cost of treatment. Therefore, with the generous support of our donors, we provide comprehensive renal care either free of cost or at largely subsidized rates to "mustaheq" patients who cannot afford the cost of treatment.

Clinical Services

24 HOURS LABORATORY & BLOOD BANK

The Sohail Trust Hospital Clinical Laboratory is committed to providing a high standard of diagnostic services to the hospital and community at large, through inpatient, outpatient and outreach modalities. The Clinical Laboratory department is multi-sectional and performs various routine and specialized diagnostic testing on in-patients and out-patients of all ages free of cost or at largely subsidized rates. The goal of Sohail Trust Blood Bank is to “Provide safe blood from donor to patient assuring all safety guidelines”

24 HOURS PHARMACY

Sohail Trust Hospital has a well-stocked pharmacy with proper storage facilities, handled by highly qualified pharmacists and well-trained pharmacy technicians.

24 HOURS RADIOLOGY & IMAGING SERVICES

The Sohail Trust Hospital is providing premium-quality imaging services to patients. It is a highly advanced, full-service department which strives to meet all patients' and clinicians' needs in diagnostic imaging and Image-guided therapies. The Radiology department offers a wide range of non-invasive and interventional radiological services. Specialized consultants work to deliver prompt and conclusive reports. Radiology has a full range of diagnostic scanners and a team of skilful technicians and clinical radiologists.

PHYSIOTHERAPY & REHABILITATION

Physiotherapy Services at Sohail Trust Hospital provide a compassionate and comprehensive program for adults and children in overcoming physical, neurological, and cognitive impairments and disabilities caused by injury or disease. All our physiotherapists are highly trained, equipped with sophisticated equipment and work within an interdisciplinary medical team to provide examination, evaluation, diagnosis, prognosis and interventions towards achieving the treatment goals of every patient.

Resource Mobilization Department

Resource Mobilization Department

Welcome to the Resource Mobilization Department, where our mission is to make a positive impact on the community through various activities and initiatives. With a strong focus on Zakat/Donation campaigns, we strive to raise funds to support those in need and create a meaningful difference in their lives.

At the core of our department's efforts lies the belief in the power of collective action. We engage with the community by placing donation boxes in various locations and reaching out to different clubs, encouraging individuals to contribute towards our cause. Through these campaigns, we are able to gather financial resources that enable us to carry out diverse projects aimed at improving lives and fostering a spirit of solidarity.

One of the key ways we channel our resources is by providing assistance during harsh winters. We distribute blankets to the deserving members of our community who lack the means to afford them. By doing so, we strive to offer warmth and comfort to those who need it the most, ensuring that they are protected from the cold and harsh weather.

In addition to our winter relief efforts, we are committed to addressing the issue of food insecurity among vulnerable populations. Through our ration distribution programs, we ensure that essential food items reach deserving communities, helping them meet their basic nutritional needs. By offering support in this fundamental aspect, we aim to alleviate hunger and promote a healthier and more sustainable society.

As part of our corporate social responsibility (CSR) initiatives, we actively engage in environmental conservation through plantation drives. By organizing these initiatives, we contribute to the greening of our surroundings, creating a more sustainable and ecologically balanced environment for future generations.

Furthermore, we recognize the importance of accessible healthcare services, particularly in remote areas. To address this need, we organize free medical camps, providing essential healthcare services to individuals who lack access to proper medical facilities. Recently, we successfully organized a camp to support those affected by floods in Sindh. These medical camps not only provide immediate relief but also contribute to the long-term well-being of the community.

Resource Mobilization Department

To maximize our impact, we generate funds specifically for specialized camps, such as surgical camps. These camps provide essential surgical interventions to those in need, offering them a chance at a better quality of life. Through targeted fundraising efforts, we are able to provide life-changing surgeries and medical interventions to those who would otherwise be unable to afford them.

In conclusion, the Resource Mobilization Department is dedicated to creating a positive change in society. Through our Zakat/Donation campaigns, winter relief initiatives, ration distribution, plantation drives, and medical camps, we strive to uplift and empower communities in need. We believe that together, with the support of generous individuals like you, we can make a lasting impact and create a brighter future for all.

Continuing Medical Education

Our recent Communication Skills Sessions! Delivered by the esteemed Dr. Shabeen Naz Masood on July 3, 2024, these sessions were a resounding success, equipping our team with invaluable skills to enhance patient care and collaboration. Thank you, Dr. Masood, for your expertise and dedication!

Highlights from our latest Diabetes Awareness Session at STH! ☐ Our community came together to learn, share, and support one another in the fight against diabetes. Here's to spreading knowledge and promoting healthy living!

Community Services

Highlights from our recent session on Skin Conditions at STH! It was an enlightening day filled with expert advice, practical tips, and community support.

We are excited to share the incredible success of our Medical Camp held from August 2-4 at the My Karachi Expo. □ Our dedicated team provided free medical services including Sugar Tests and BP Tests, ensuring community health and well-being. Thank you to everyone who visited us and supported our mission to promote better health for all!

Community Services

Sohail Trust Hospital, in collaboration with CARE Society, organized a free pediatric medical camp at Government Girls Primary School, 51-C Korangi No. 5 1/2, Karachi, on September 10, 2024. Led by our expert physician, Dr. Mehtab Hussain, students received quality healthcare and consultations during this one-day camp, ensuring the well-being of our future generation.

Exciting Moments from the Opening Ceremony of Sohail Trust Medical Services in Korangi

A new chapter in healthcare begins as we bring quality medical services closer to the community. Thank you to everyone who joined us in making this day special. Together, we are committed to building a healthier tomorrow.

Community Services

At Sohail Trust Hospital, we care about your health and well-being! Our recent Free Hepatitis B Vaccination Camp, held on October 26 & 28, was a success, thanks to the support of our dedicated team and community. Together, we're working towards a healthier, safer future. Thank you to everyone who participated and helped spread awareness!

We're grateful for the incredible turnout at our 2nd Free Medical Camp held on 9th November 2024 at Sohail Trust Hospital Medical Services! It was our privilege to serve the community and provide essential healthcare services to those in need. Thank you to everyone who participated and supported this event. Together, we're making a difference in community health

Community Services

The Medical Education Department of Jinnah Medical & Dental College successfully organized a CME session on 'Approach to Common Dermatoses'. This insightful event welcomed clinicians from various specialties. We were privileged to have Dr. Javed Memon as our esteemed guest and we extend our gratitude to Dr. Farina Zameer for facilitating the program.

Dr. Farina Zameer - Skin Specialist, Dermatologist & Best Skin Doctor

Sohail Trust Hospital was honored to set up a free medical stall at the Health & Beauty Expo. Our team provided free consultations, shared valuable health tips, and raised awareness about the importance of proactive healthcare.

We remain committed to serving our community and promoting healthier lives.

Saylani Welfare International Trust

Saylani Welfare Trust's commitment to serving the community has been exemplary, and their partnership with S.M. Sohail Trust has been instrumental in providing essential medical care to deserving patients. In addition to providing food and other essential services, Saylani Welfare Trust has been supporting Sohail Trust Hospital in providing free medical treatment to patients who cannot afford it through Zakat and Donation.

Their collaboration has resulted in a significant impact on the lives of people who struggle to access basic healthcare services. The patients of Sohail Trust Hospital who cannot afford medical treatment can receive free medical care from the hospital, thanks to the support of Saylani Welfare Trust. This partnership has brought hope and relief to those who would otherwise have no access to medical care.

Saylani Welfare Trust's commitment to serving the community is not limited to medical care. They have recently announced their plan to provide free food to the locals of Korangi area, as well as to people working in the vicinity of the industrial area and hospital.

This initiative is a reflection of their dedication to improving the lives of people who struggle to access basic necessities. Providing free food to those who are unable to afford it can have a significant impact on their lives and can improve their overall well-being.

They have worked together to provide free medical treatment to deserving patients and have organized blood donation drives to support thalassemia patients. The blood donation drive organized by S.M Sohail Trust for the thalassemia patients of Saylani Welfare Trust is a testament to their dedication to serving the community.

The selfless work of Saylani Welfare Trust has been critical in creating a better tomorrow for Pakistan. Their support to S.M. Sohail Trust has enabled them to expand their reach and provide medical care to more patients. We applaud the efforts of Saylani Welfare Trust for their remarkable work and partnership, which has been essential in creating a more equitable and just society.

Tiny Miracles, Big Victories

Meet our 33-weeker twin warriors born prematurely with weights of just 1.5 kg and 1.9 kg. With the grace of Allah and the expert care of our dedicated Neonatal Team at Sohail Trust Hospital, they were successfully extubated and discharged in stable condition.

Today, they returned for their follow-up visit healthy, happy, and thriving!
A proud moment for our NICU team and a heartwarming day for the family!

Alhamdulillah for safe recoveries, and for the smiles that make it all worthwhile.

Patient Testimonials

Shakeela, a resilient widow and a mother of three small children, carried the weight of not only her family's future but also the burden of debilitating upper abdominal pain that had plagued her for an entire year. With no source of income and her children's well-being resting solely on her shoulders, she had nowhere to turn until she arrived at Sohail Trust Hospital. For seeking medical treatment had seemed like a distant dream, as her financial situation left her with limited options. The pain she endured was both physical and emotional, as it hindered her ability to provide for her children. The situation was dire, but hope was about to enter her life.

Thanks to our donors, Shakeela's journey to recovery was made possible. Every test, operation, and every medical expense she required were covered by the generosity of those who understood the importance of extending a helping hand to those in need.

The physical pain that Shakeela had carried for so long began to subside, and with it, a glimmer of hope emerged. Her children, witnessing their mother's recovery, were given a second chance at a brighter future.

Patient Testimonials

My name is Muhammad Sherroz, and I have come from Korangi Number 2. One of my relatives had received treatment here at Sohail Trust Hospital, and it was through their recommendation that I came here.

The issue was that during delivery, some fluid entered the baby's mouth, and his condition became very critical. The baby was on a ventilator for three days, and I felt myself growing weak with worry. I just left everything in Allah's hands, believing that He would do what was best.

The doctors and the entire staff were incredibly supportive, constantly reassuring us that the baby would be fine, Insha'Allah. After spending 12 days here, the baby was finally handed back to me on the 13th day, and Masha'Allah, I could see that he had recovered properly. When the doctor asked if I was satisfied and ready to take him home, I said I would do whatever they advised. I am very grateful to the person who recommended this hospital and to Sohail Trust Hospital itself. I urge others to visit Sohail Trust; you will see for yourself how professional the doctors and staff are. From the atmosphere to the affordability of medicines and the quality of treatment, everything is excellent. I am deeply thankful to Sohail Trust Hospital."
